# Finding Severities

HIGH **Critical Issue**

System-wide outage detected. Immediate action required.

HIGH **High Severity**

Memory leak in worker process causes gradual degradation.

Restart workers on 4-hour schedule until patch is deployed.

MEDIUM **Medium Severity**

Deprecated API endpoint still receiving 500 requests/day.

LOW **Low Severity**

Minor UI alignment issue on mobile Safari.

GOOD **Informational**

New monitoring dashboard deployed successfully.
